AYER'S PILLS.
FOR ALL THE PURPOSES OF A
FAMILY PHYSIC.

There has long existed a public demand for an
effective purgative pill which could be taken
safely and perfectly in its operation. This has
been prepared to meet that demand, and an exten-
sive trial of its virtues has conclusively shown with
what success it accomplishes the purpose designed.
It is easy to make a physical pill, but not easy to
make the best of all pills—one which should have
none of the objections, but all the advantages, of
every other. This has been attempted here, and
we submit respectfully to the public decision. It has been
unfortunate for the patient hitherto that almost every purgative
medicine is acrimonious and irritating to the bowels.
This is not many of them produce so much
gripping pain and refluxion in the system as to more
than counterbalance the good to be derived from
them. These pills produce no irritation or pain,
unless it arise from a previously existing obstruc-
tion or derangement in the bowels. Being purely
vegetable, no harm can arise from their use in any
quantity; but it is better that any medicine should
be taken judiciously. Minute directions for their
use in the several diseases to which they are ap-
plicable are given on the box. Among the com-
plaints which have been speedily cured by them, we
may mention Liver Complaint, in its various forms
of Jaundice, Indigestion, Langour and Loss of Ap-
petite, Liteness, Irritability, Bilious Headache,
Bilious Fever, Fever and Ague, Pain in the Side
and Loins; for, in truth, all these are but the con-
sequence of diseased action in the liver, and as
soon as the liver is purified, the system is cured.
They afford prompt and sure relief in Con-
stiveness, Piles, Colic, Dysentery, Hemorrhoids, Scrofu-
lous and Scoury, Colds with soreness of the body,
Ulcers and impurity of the blood; in short, any
and every case where a purgative is required, they
will cure it. They have also produced some singularly
successful cures in Rheumatism, Gout, Dropsy, Gravel,
Rheumatism, Palpitation of the Heart, Pains in the
Back, Stomach, and Spleen. They should be freely
taken in the spring of the year, to purify the blood
and prepare the system for the change of seasons.
An occasional dose stimulates the stomach and
bowels into healthy action, and restores the appe-
tite. They purify the blood, and, by their
stimulant action on the circulatory system, re-
new the strength of the body, and restore the
wasted or dissipated energies of the whole organism.
Hence an occasional dose is advantageous, even
when no serious derangement exists; but a
necessary dosing should never be carried too far,
as every purgative medicine reduces the strength,
when taken to excess. The thousand cases in which
physic is required cannot be enumerated. As it
has been employed so widely, and with such suc-
cess, it is confidently believed this pill will
answer a better purpose than any thing which has
hitherto been available to mankind. When their
virtues are known, the public will not only
doubt that remedy to employ when in need of a
cathartic medicine.

Practical and Analytical Chemist.

AYER'S CHERRY PECTORAL,
For the rapid cure of
**COUGHS, COLDS, HOARSENESS,
BRONCHITIS, WHOOPING-COUGH,
CROUP, ASTHMA, AND
CONSUMPTION.**

This remedy has won for itself such notoriety
from its cures of every variety of pulmonary disease,
that it is entirely unnecessary to recount the
evidences of its virtues in any community where it
has been employed. So widely is the fact known, and
so numerous the cases of its cures, that almost every
section of the country abounds in persons publicly
known, who have been restored from alarming and
even desperate diseases, and who can attest the
superiority over every other medicine of its kind to ap-
pear to escape observation, and where its virtues are
known, the public no longer hesitate what antidote
to employ for the distressing and dangerous affec-
tions of the pulmonary organs which are incident
to our climate. And not only in formidable at-
tacks upon the lungs, but for the milder varieties
of Coughs, Croup, Hoarseness, &c., &c.,
CHILDREN is the pleasantest and safest medicine
that can be obtained.
As it has long been in constant use throughout
this section, we need not do more than assure the
people its quality is kept up, and that it ever
has been, and that the genuine article is sold by—

REMOVAL.

The office of the "KENTUCKY FREEMAN" has been removed to the new three-story building on Main street, near the corner of St. Clair.

To Our Patrons.

We have placed our last year's accounts, with a few advertising accounts which are due, in the hands of Mr. J. M. Loe for collection. Most of these accounts belong to the old firm of Helms & Major, and for that and other reasons must be settled on presentation. We have about \$2,000 due us on these accounts in the county and town, and as they have been due for some time and Mr. Loe is collecting on commission and therefore cannot afford to lose his time, and furthermore as the Yeoman Office needs the money, we hope our patrons will find it convenient to settle without delay.

Democratic Convention.

The democrats of Franklin county are requested to attend a convention to be held here on Saturday next, the 9th December, to appoint delegates to the State Democratic Convention, on the 8th January next, in the city of Frankfort. We hope to see the democracy of this county turn out in full force on next Saturday, as it is a very important occasion. The hour and place of meeting will be given in hand bills.

ELECTION OF GOVERNOR SEYMOUR.—The Washington Union of the 26th, says: Reliable information leads us to believe that Horatio Seymour, in spite of all the efforts to defeat him, will be declared Governor of New York for another term. We shall chronicle such a result with sincere gratification.

LIEUTENANT JEROME NAPOLÉON BONAPARTE, late of the United States Army, has resigned his commission for the purpose of entering the French service—probably in the East.—E2.

We are aware that this is a peculiar case upon which to predicate an argument, but it does seem to us that after a young man has received at the hands and the expense of the United States Government, the true military and civil education he obtains in a four years' life at West Point, he ought in honor to consider that the results of that education and his services are due to the government. When the United States place a cadet at West Point, it is at least with an implied understanding that his services through life are to be devoted to this country. There should be, if necessary, an expressed obligation to this effect.

THE LONDON TIMES.—A statement in the London Times of the comparative number of penny stamps which were issued to that journal for the second quarter of the present year, and to the five other morning papers published in London, shows that the Times has almost absorbed the entire circulation of the morning press of that city. It appears that the number of stamps issued to the Times during the quarter was 3,796,730, which is equal to a daily issue of 50,000; while that of the Daily News, Morning Advertiser, Morning Chronicle, Morning Herald, and Morning Post, amount to only 1,665,094, which is equal to an average daily issue of a little more than 4,000.

THE Washington Evening Star says that the impression prevails in diplomatic circles there that the Spanish government, acting under the prestige or influence of what has of late transpired in France, will certainly refuse again to receive Mr. Soule. Although the Government is in receipt of dispatches from Mr. Mason, and probably also from Messrs. Buchanan and Soule, it is not likely that the present position of the Soule difficulty will be elucidated for the benefit of the public before the delivery of the President's message.

BEFORE Dr. Beale, the Philadelphia dentist, was sentenced, he made a speech, avowing his perfect innocence of the crime of which he was charged and convicted, and censuring the conduct of the District Attorney and the jury. Miss Mudge, the young lady whose person he violated, while she was under the influence of ether, has been married since Dr. received his sentence. She was engaged at the time the outrage was committed, and the young man in whom she trusted has stood by her nobly through the terrible ordeal that she has passed.

SINGULAR RESULT.—The vote for Governor of New York shows a remarkable result: Seymour, 156,445; Clark, 156,770; Ullman and Bronson together, 156,156. Thus dividing the vote of the State nearly into three equal parts.

RAILROAD CONNECTION was established between St. Louis and Salem, Ill., the Western Division of the Ohio and Mississippi Railroad, on Tuesday. It was made the occasion of a grand celebration by the citizens of Salem, in which the city authorities at St. Louis participated.

The Fate of 'Sir John Franklin.

To the Editor of the London Times:

Sir: The question has frequently been asked me, "How can I account for so few of the fortunate party forming the expedition under Sir John Franklin being seen by the Esquimaux and for all those being found dead at or near one spot?"

It is my duty, as well as my desire to give every information on this distressing subject, not only to the relatives and friends of the lost men, but also to the public at large; and the best medium of doing so is through the columns of your far-spread journal, should you consider the following remarks worthy of a place therein:

As I have not the blue-books on the subject of Arctic discoveries by me, I may make some error in my statements; but as far as my memory serves me, the last news we had from Sir John Franklin in 1845 was that he had provisions for three, or somewhat more than three years, which he could make last for four. Again, the captain of a whaler, whose name I forget, says that "the crews of the Erebus and Terror, when in Baffin's bay, on their passage westward, were killing and salting down great numbers of water-fowl as a resource in case of necessity."

The information obtained by me from the Esquimaux (by a mode of questioning which they understood, and in which they were induced to explain the different places where they had passed the winter seasons since the year 1845) was, I consider, perfectly conclusive as to the month of 1850 being the period of the melancholy catastrophe to which I refer. This will make the elapsed since Sir John Franklin was last seen in Baffin's bay until the spring, 1850, very nearly five years.

Supposing that the provisions carried from England by the expedition did last four years, (by the end of which I have no doubt the provisions would be much reduced in numbers, and those that survived greatly debilitated) the party would be wholly thrown on the greasy, rancid, salted water-fowl, which I believe most persons will agree with me in thinking would increase the fatality of scurvy if it already existed, or cause that dread disease if it had not previously manifested its appearance.

This may account rationally for so few white men having been seen by the natives.

Again, "as to all the dead being found at or near the same place."

Nothing is more natural or easily accounted for by a person of experience in the Arctic seas, and who is perfectly conversant with the subject.

Let us for a moment picture to ourselves a party of gallant men reduced by want, and perhaps disease, to great extremity, pushing their way to the mouth of a large river, such as the Mackenzie, on which they expected would break up in a short time, and permit them to embark their boats. Having arrived near such a point, the strength of some has failed, so that they could not travel even when unattached to the sledges, and the others were unable to drag them. What step would brave men take in such a difficulty. My reply would be, cling together; stop, and let the stronger endeavor to kill game for the support of themselves and the weaker until the ice breaks up, then embark, turn by turn, and thus travel with much greater ease and speed than when on foot.

To show that this opinion is not a mere fancy or fiction on my part, I may mention that my first feeling on hearing the mournful tidings was one of regret that I had not been with the expedition—a feeling difficult to analyze, but which must have arisen instantaneously, and without reflection, from an idea that my greater experience of the Arctic traveling and hunting might have been useful to those in extremity and danger.

I state this, not as anything praiseworthy or commendable on my part, but to explain what I think were living in the mind of any man having the ordinary amount of courage and love for his fellow-men.

Another point to which I would for a moment advert is the tragic event connected with the last days of our countrymen.

The Esquimaux whom I saw at Pelly bay seemed to me to be in a state of great excitement, and when I returned to the fort, I found that the three men left in charge of our property there. None of these men understood a word of the Esquimaux language; yet I was informed by them before I had communicated any of my news, that they believed a party of white men had died of starvation far to the westward, and that they had been reduced to a very dreadful state before death. On my asking my informants how they had discovered this, they replied by the signs made them by the natives.

It may be demanded why I did not give all these reasons in corroboration of my statements in the report to the admiralty? The answer is simple. I kept such for my more detailed report to the honorable Hudson Bay Company, which circumstances (to which I alluded in a previous communication that appeared in your paper) have prevented me from completing.

I may add, in support of what I stated a few days ago regarding men carrying with them useless articles on having to abandon their ship to the northward, that I have since learned from the best authority—Sir John Ross himself—that in effecting his wonderful escape, after three years' detention in Prince Regent's Inlet, he distributed his silver plate among the men rather than leave it behind, and thus brought most of it to England with him.

Should you think these remarks worthy of notice, you would oblige me much by giving them insertion.

I have the honor to be, sir, your very obedient servant,

JOHN RAE.

YAVISTOCK HOTEL, Nov. 6.

NORTH CAROLINA.—THE GOVERNOR'S MESSAGE.—The message of Governor RAN to the North Carolina legislature gives a favorable report of the affairs of the State. He states the public debt, on the 31st of October, to have been \$2,896,270, which does not include \$250,000 Wilmington and Raleigh Railroad bonds, endorsed by the State and paying interest. There are no matters of interest to people out of North Carolina, except the following reference to the "Abolitionists of the North."

The bright prospect of our State affairs, I regret to say, is somewhat clouded by the reckless spirit of fanaticism, which threatens the violation of the Constitution and the dissolution of the Union. The conviction is growing deeper every day that the Abolitionists of the North are determined that the South shall not repose in the quiet enjoyment of her institutions. The politicians and clergy who lead these fanatics are not purer and wiser than the cotemporaries of the framers of the Federal Constitution. Then the Statesmen and Divines were content to take the Bible and the Constitution as the "touchstones" of the faithful, and the north and south could enjoy a spirit of harmony, and unite in common effort to secure the blessings of civil and religious liberty. But how changed is the picture of the present day. Now these "higher law" men disregard the compromise of the Constitution, and are mischievously endeavoring to violate the rights of our property and domestic peace, and thus to bring down upon the South a punishment of the most terrible nature. This is a question of national importance; and I recommend the General Assembly to declare compromises of the Constitution to be observed in good faith, on the part of the North, and that North Carolina knows her rights and will maintain them.

MELANCHOLY FATE.—The Mayville Express mentions the conviction, at the Greenup Court, of a prominent man in that region, J. E. DEANS, and his being sentenced to the State Prison for one year, for theft. He was a gentleman of respectable family—had the advantage of a classical education—was for some years a practitioner of law—was remarkable for his oratorical powers and represented Greenup county in the Kentucky Legislature; yet the devil of avarice, for a few vile dollars, tempted him to his fall and irretrievable disgrace.

THE Hardin circuit court is now in session. DAVID TAYLOR has been convicted four years to the Penitentiary for horse-stealing. The Elizabethtown Intelligencer says:

On Wednesday the case of the Commonwealth v. THOMAS M. YATES, one of the Ward jurors, indicted for perjury, was called, and at the present writing seven jurymen have been employed. It is probable the rest of the day will be consumed in securing the remainder. We understand the defendant is determined to go into trial if possible. The town is filled with people and great interest is manifested. The result will be made known in our next.

Doesticks Runs with the Machine.

701 NARROW STREET.

New York, October 30, 1854.

I am not known by the cognomen of "Mose," nor do I answer to the name of "Sykesy"—neither, as a general thing, do I promenade the middle of Broadway with my pantaloons tucked into my boots. Still, by way of a new excitement, I lately joined the fire department and connected myself with the company of Engine 97.

Bought my uniform, treated the company, took up my quarters in the bunkroom, where I slept by night in a bed occupied in the daytime by a big yellow dog. First night, went to bed with my boots on, ready for an alarm. At last it came—seized the rope with the rest of the boys; started on a run; tugged and toiled till we got into the 11th district, four miles and a half from home; found the alarm had been caused by a barrel of shavings, and the conflagration had extinguished itself; had to drag her back home; and then, to my great mortification, I found that I was not a member of the company. I was then, I suppose, in the hands of the judgment. Book unrolled!

My steps are nightly driven, By the fever I must breathe, To near the sick bed, and I find, The word that shall give me rest. Open the door of thy heart, Knock him openly child-door, And my kisses shall teach thy lips, The loveliest shall have no more. Till the sun grows cold, And the stars are old, And the leaves of the Judgment Book unroll!

SPECIAL NOTICES.

INVALIDS recovering from the effects of Fever, Bilious Diseases, or long continued illness of any kind, will find Carter's Spanish Mixture the only remedy which will revive their drooping constitutions, expel all bad humors from the blood, excite the liver to a prompt and healthy action, and by its tonic properties, restore the patient to life and vigor.

We can only say TRY IT. A single bottle is worth all the so-called Sarsaparilla in existence. It contains no Mercury, Opium, or any other noxious or poisonous drug, and can be given to the youngest infant without hesitation.

See the certificates of wonderful cures around the bottle. More than five hundred persons in the city of Richmond, Va., can testify to its good effects.

When Macdonald, the Greek Physician was slain, Homer said, "a good Physician is worth as much as a whole army." Then a good medicine like Ayer's Cathartic Pills, is worth a great deal more, because it cures as well, works wider, and lasts longer. The circle of the best Physician's labor must be narrow, while such a remedy is available to all—can be had by every body, and is worth having.

Holloway's Pills, a Certain Remedy for Debilitated Constitutions, Loss of Appetite, and Lowness of Spirits.—Mr. Richard Whit, of No. 8, Albion-square, Manchester road, Bradford, was afflicted for several months with bodily weakness, loss of appetite, and lowness of spirits, he was for a long time patient at the dispensary, but derived no benefit whatever; the medical attendant stated that he was in a deep decline, and that medicine was of no further use to him. About this time he was recommended to try Holloway's Pills, and this invaluable medicine speedily effected a perfect cure, and he has ever since enjoyed the best of health.

As a certain remedy, dyspepsia and liver complaint rank as most difficult to cure. We are pleased to have it in our power to point out a remedy which has proved effectual in many cases, and which we can safely recommend as a certain and infallible cure, it has been the means of restoring thousands from an untimely grave. We mean the Household German Bitters, prepared by Dr. C. M. Jackson, at the German Medicine Store, 439 Arch Street, Philadelphia.

BYWARD TAYLOR must have made good use of his time, when he was wandering over the sandy deserts in company with the bearded Bedouins. A finer specimen of the style of poetry we never read:

The Bedouin Song.

From the desert I come to thee To hear a million words with fire; And the winds are left behind, In the speed of my desire. Under thy window I stand, And the midnight hears my cry; I love thee, I love thee, With all my heart and soul, And the stars shall witness, To the stars are old, And the leaves of the Judgment Book unroll!

Look from thy window and see My passion, and my pain; I lie on the sands below, And I faint in my disdain. Let the night-wind touch thy brow With the heat of my burning sigh, And let the stars hear the cry Of a love that shall not die. Till the sun grows cold, And the stars are old, And the leaves of the Judgment Book unroll!

FROM the subscriber, living in Frankfort, on Wednesday, Nov. 8, a small RED COW, five years old, one horn a good deal shorter than the other—small bag, with black teats. Also, on Saturday evening, November, 21st, a large BRINDLE COW, old—blind in right eye. Both cows neatly driven, white legs. The red cow was raised, I believe, on Benson, and was purchased by me, only a few days previous to her departure, from JOHN SMITH, Esq., living on the old Lexington hill. The brindle cow was purchased last Spring from F. CHIES, Esq., about 6 miles from town, on the Georgetown pike. A suitable reward will be paid for the delivery of either or both of said cows to me, at my residence on Lexington hill, or for any information that will enable me to get them. S. MCCHESNEY.

SCARCITY OF FUEL.—This is the cry that is heard all over our State and even over other States. Active steps are being taken by prominent men, with a view to so control the trade, that a good supply of coal and wood may always be kept, so that avaricious speculators cannot take advantage of the necessities of the public, when the waters are so low, that boating to any point of transportation becomes an impossibility. We see that in Lexington and in other places, movements have been set on foot to organize regularly chartered Coal Companies, whose object will be to obtain and keep constantly on hand a supply of fuel, and to furnish it to the citizens at moderate prices. This is as it should be, and we can see no valid reason why a similar institution should not be organized in this place. We hear our citizens frequently complaining of the scarcity of coal and wood and yet they will still bear the inconvenience and cost, in preference to consulting together and devising some means whereby this tax may be removed. It needs no extraordinary discernment to detect the fact that no city will ever prosper rightly, when the high price of fuel is about enough to consume the wages of the mechanic, without taking into consideration the exorbitant prices he has to pay for provisions. What is the result? Those who are able, dispose of everything they have and leave for some place, where they can earn an honest living while the others are compelled to remain and eke out a miserable, drudging existence. Our citizens should think about this matter, and as the inclement season of the year has arrived, let them meet and consult as to some course to be pursued in regard to this matter.

ACCIDENTALLY SHOT.—Mr. ALEX. BRADLEY, the keeper of the first toll-gate on the Lexington pike, was shot, a few days since, in the calf of one of his legs, by the accidental discharge of a shot gun in the hands of a friend who was riding with him. Fearful that mortification would ensue, his surgeons considered it necessary that his leg should be amputated, and it was taken off a few days since, a few inches above the knee. He is still in a critical condition, but we hope soon to see him restored to health. He is a very estimable gentleman, and has a large family dependent upon his labor.

RECONCILE.—A reconcile took place in Elizabethtown Friday evening, between Dr. BAYAN YOUNG and Tnos. D. Brown, in which Mr. Brown received two shots, one in the hip and another in the chest, and is believed to be mortally wounded. Brown fired four times and Young three times. Young was unhurt. These gentlemen had a rencounter some months since, in which Brown was slightly injured.

FIRE IN MR. STERLING.—We learn from the Mt. Sterling *Whig*, of the 1st inst., that about 12 o'clock the night before, a fire broke out in the confectionary of Mr. NEELY, and before the flames could be arrested, four buildings, all frame were entirely destroyed. They were occupied by Mr. NEELY, Mr. ESTILL, Rev. T. D. LEA, and Geo. BOTT. Nearly all of the furniture was saved. The loss is about \$2,500—no insurance.

THE ACCOUNTS OF THE LOUISIANA SUGAR CROPS, published in the New Orleans papers, are unfavorable. They say the amount of sugar produced will fall short at least one-third compared with the last, owing to a deficiency in the juice of the cane; but the quantity of the sugar manufactured is described as being much better, as the juice is richer. Planters are busy grinding and rolling.

WILLIAM KISSANE.—The editor of the *Helena Shields* says it is confidently asserted that this individual has been seen in that town lately, and the Memphis *Whig* learn from his counsel in that city, that he will be present to stand trial as one of the *Martha Washington* conspirators at the present term.

FATAL AFFAIR IN BARDSTOWN.—An affair occurred in Bardstown, Ky., on Tuesday night, in which L. L. ABE was shot and killed by John Wilson.

DOUBLE RUNAWAY.—The other day the horses attached to a stage at Charleston, Va., ran off with a number of passengers in the coach, among whom were an eloping couple from White Sulphur Springs. All were more or less bruised and cut, but the wedding came off.

THE ARCTIC.—CAPT. LUCE, it is said, is about to embark in business on shore. Mr. COLLINS, it is said, declines re-employing on his steamers, any of the persons who were in service on board of the Arctic.

THE LAST SNAKE STORY we have read is told by the editor of the *Columbia* (Texas) Democrat. He says he found a snake four feet in length coiled up among the exchanges on his table. Ugh!

MR. DAVID FLOUNOY, of Smithland, Ky., late clerk of the Livingston Circuit Court, died on the 27th ult.

THE RICHMOND (Ky.) Messenger announces the death of Jos. TURNER, an old and prominent citizen of that place.

A SCAMP.—A boy named GRAVES, aged only fourteen years, hailing from Lexington, Ky., who was in destitute circumstances at Dayton, Ohio was sheltered and cared for by a poor widow woman, and in gratitude for her charity, last week robbed her of all her money—thirty dollars, and decamped.

ATTEMPTED MURDER.—Mr. STANFIELD, of the firm of STANFIELD & KIMBALL's blast furnace, near Dover, Cumberland river, was shot by a secret enemy last Saturday week, the ball taking effect in his breast. His life is despaired of.

NAVIGATION has been resumed in Barren and Green rivers, as we learn from the *Bouling-Green Standard*.

COURT OF APPEALS.

WINTER TERM.

MONDAY, Dec 4th 1894.

The Court assembled—Present MARSHALL, Chief Justice and CHENSHAW, and STILES, Judges. Com'th v Jones, (3 cases.) Clinton; Same v Marlon, Clinton; Same v Carter, Clinton; Same v Craig, Jefferson; Same v Bird, Shelby; Taylor v Com'th, Shelby; Garthright v Same, Oldham; Sanders v Same, Jessamine; Driskill v Same, Anderson; Garrard v Same, Pendleton; Renaker v Same, Grant; Lindsey v Rucker, Franklin; Bates v Arnold, Franklin; Crockett v Wilson, etc., Franklin; Miller v Ellis, Scott; Burbridge v Same, Scott; Dent v Wright, Scott; Gault v Dougherty, Scott; Goins v Bacon, Franklin, affirmed by consent—were argued.

HOG-KILLING.—The following is a statement of the number of hogs killed and in pens up to last evening:

Killed.	In pens
Hull, Hunt, & Co., 22,903	1,300
Owley, Kinnard, & Co., 19,777	800
Richard Atkinson, 20,150	850
A. S. White & Co., 18,434	2,120
Jarvis & Co., 11,200	
Huffman & Co., 14,000	
Hamilton, Ricketts, & Co., 4,500	
Total, 144,244	5,070

The total number killed and in pens last night was therefore nearly 150,000 head.

We have heard of the following sales since our last: 1,200 head, averaging 155 lbs, at \$4 80 cash; 255 head at \$4 75 cash; 135 head at \$5 cash; about 150 head, very light, at \$4 37 1/2 @ \$5; and various other lots at \$4 75 to \$5, the former price usually cash and the latter on four months' time.

The St. Louis *Intelligencer*, of Thursday, says: The season for hog slaughtering and packing is at hand, and several establishments are in full blast. The weather is quite favorable for the business; not extremely cold for generally dry. The price paid in most cases for corn-fed hogs weighing 300 lbs and over is \$4 100 lbs. Ordinary and inferior lots range from \$3 50 to \$3 75 100 lbs. A lot of common quality came in today, for which \$3 50 was offered but not taken when we left the market.—*Low Jour.*, 4th.

INDIAN MURDER AND ABDUCTION.—The *Galveston* (Texas) *Civilian* & *Gazette*, of the 14th ult., copies the following shocking paragraph from the *Alamo* (San Antonio) Star:

Mr. H. Williams was killed by the Indians on Sunday last. He went to haul a barrel of water and his wife hearing him hollow ran to see what was the matter. On arriving near, she saw five Indians, who had just finished the brutal murder of her husband and were on their way to her camp, where they took everything they wanted—also her three children—after which they went a short distance off and sat down to eat, where she went and begged from her two youngest children. The Indians took her oldest child Fanny, and the horses, and Mr. Williams in making her way to Carruthers, got lost and did not find the house until daylight this morning.

This happened on the Medina, about 15 miles from San Antonio. Pursuit was made too late and the murderers escaped. The Western *Texan* of the 29th inst. says:

The company that went out a few days ago in pursuit of the Indians, who last Sunday murdered Mr. Williams, on the Medina, and carried off one of his children, came in yesterday evening. They report the Indians to have been Comanches. They trailed them some distance, and finding it impossible to overtake them, returned. The result, they stole some horses and pressed on with rapidity that proved they were getting out of the way, and expected pursuit. When they commit such outrages, it is entirely useless to pursue them, unless pursuit can be commenced almost simultaneously with the commission of the act, as they travel night and day until conscious that they are out of harm's reach. The only way to get rid of them is to surround them against the perpetrations of such acts of violence; let our action precede and not succeed them.

GREAT EXCITEMENT AT CAIRO.—*Special Men Shot—Suicide of a Desperate Negro by Drowning.*—Capt. BACHLEDER, of the American army, who arrived yesterday from Cairo, has related to us the following desperate affair which took place on Tuesday. A negro named Joe Spencer, who keeps a boarding and lodging establishment on one of the wharf boats at Cairo, was sued out for a debt and summoned to appear before a justice of the peace. The negro armed himself with a revolver and took along with him a quantity of powder and threatened to blow up the whole court in case judgment should go against him. Attempts were made to take the pistol from him when he fired in the crowd, wounding several men. He then took refuge on an old flatboat and defied his assailants to approach him. He fired at all who came near. To avoid sacrifice of life, it was decided to set fire to the boat for the purpose of making him surrender; this was accordingly done, when the negro appeared on the roof fired another volley at his pursuers, and declaring he would die as one of the heroes of the black race had done before him, immediately plunged into the river and was drowned. We have given this precisely as it was related to us by Capt. BACHLEDER.—*Low Jour.*, 2d.

HOGS.—The arrivals have been very light and none of the houses are fully occupied. We estimate the killing up to last night at 139,000 head, with probably only a few thousand in pens. Prices are very firm, but there are but few sales making, and they are mostly by drivers. We hear of the following sales: 200 head at \$4 85 cash and 200 at \$5 cash, both averaging 210 lbs.; 200 head, averaging over 200 lbs., at \$5 cash; a few hundred light hogs at \$4 37 1/2 @ \$4 75 cash, according to quality; and 600 head very heavy hogs at \$5, on time. All these were Indiana hogs. There were few if any Kentucky hogs in market, and there are not many to come in.

In piece meats we learned of the sale of only a few hundred hams at 7 1/2 c, 60 days, interest added.—*Low Jour.*, 2nd.

AN ARSONIST.—T. P. KIPPER, formerly merchant of this place, and more recently in Mowena, eloped a few days since, with another man's wife, leaving his own here in a destitute condition. He has gone, it is thought, to New York.

This same Kipper is believed to be a merchant in St. Louis to the amount of six or seven thousand dollars, besides several thousand in this county. Before eloping, he sold his stock of goods in Mowena on a long credit, took notes for the same, and sold them to his brother-in-law, Henry Davis, of Christian county, for one-third the face of them in cash. The notes are in such a condition that they cannot be got out of the hands of this said brother-in-law. Mr. Jackson was security for Kipper for \$700, which he will have to pay. Kipper, we understand, sold Mr. JACKSON some sixteen or eighteen hundred bushels of wheat and corn in store at Naples, but before Mr. JACKSON received Naples, Kipper had disposed of the grain leaving JACKSON minus \$500.

ARRIVAL OF THE STAR OF THE WEST.

NEW YORK, Dec. 2.

The steamer *Star of the West* arrived at 3 1/2 o'clock this afternoon, bringing 260 passengers, \$737,000 in specie, and dates from California to the 9th of November, which were brought down by the steamer *Cortez*.

Among the passengers were Senator Weller and the Hon. J. A. McDougall. The news is of very little importance. In commercial matters there is little or no change. A fair business was done. Gallego and Haxall flour closed at \$19 50 @ 12 75. Adamantine candles 42 @ 43c. Clear bacon \$16, new hams 16 1/2, lard 17, clear pork \$22.

The mining news is favorable. The vacancy in the Supreme Judgeship, occasioned by the death of Judge Wells, has not yet been filled by the Governor. Various candidates are spoken of, the most prominent of whom is Judge Fields of Maryland. The citizens of Darwin Valley are urging the annexation of that place to California.

The pioneer of Adams' Express Company, by way of Salt Lake to St. Louis, started from Los Angeles on the 1st.

An attempt to re-open the overland express to Acapulco and Vera Cruz has been temporarily postponed on account of the refusal of Alvarez and party to grant passports to the agents.

Official returns from the recent election show a combined Democratic majority. The Congressional vote is 12,345.

It is stated that the State Bank, at Bennington, which suspended last Monday, may ultimately redeem its notes, the directors being held in bonds to the State to insure that result. The bills sell for 50 cents on the dollar. There are current reports that the bank lost largely in Richmond.

RICHMOND, Dec. 1. The Democratic State convention met at Staunton, Col. Bayly, chairman, W. F. Richie and Robt. H. Hughes, secretaries.

A committee of one from each district was appointed to nominate permanent officers. They reported Oscar M. Crutchfield, of Spotsylvania, president, and thirteen vice-presidents. The secretaries are above confirmed.

Confusion ensued on a motion to go into nomination for Governor. After a long debate upon the rules as to the casting vote, Mr. Shockford moved the convention would not make nominations for Governor and Lieutenant Governor unless the candidates receive votes sufficient to represent a majority of the whole Democratic vote in the State.

Mr. Garnett offered a substitute, that they shall require a majority of the votes cast to nominate candidates for Governor, Lieutenant Governor, and Attorney General, which was adopted.

This is considered a triumph for the Wise party, it being the strongest in the convention. Exciting times are expected. Efforts will probably be made to further amend by adopting the two-thirds rule.

The Democratic vote in the convention is 62,400. The whole Democratic vote in the State is 70,000.
